# IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USING.**
2. To protect against risk of electric shock, do not place cord, plug, or base of appliance in water or any other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. Always unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
5. Avoid contact with moving parts. Keep hands, hair and clothing, as well as spatulas and other utensils, away during operation to reduce the risk of injury and/or damage to the appliance.
6. Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner. Return the appliance to the nearest Cuisinart Repair Center for examination, repair, electrical or mechanical adjustment.
7. The use of attachments not recommended by Cuisinart may cause fire, electric shock or risk of injury.
8. Do not use outdoors.
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Keep hands and utensils out of freezer bowl while in use to reduce the risk of injury to persons or to the appliance itself. **DO NOT USE SHARP OBJECTS OR UTENSILS INSIDE THE FREEZER BOWL!** Sharp objects will scratch and damage the inside of the freezer bowl. # SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

## NOTICE

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

## SPECIAL CORD SET INSTRUCTIONS

A short power-supply cord is provided to reduce the risks resulting from becoming entangled in or tripping over a longer cord. Longer extension cords may be used if care is exercised in their use.

If a long, polarized extension cord is used, the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and the longer cord should be arranged so that it will not drape over the countertop or tabletop, where it can be pulled on by children or animals, or tripped over.

## CAUTION

- Do not immerse base in water.
- To reduce the risk of fire or electric shock, do not disassemble the base. Note: The base does not contain any user-serviceable parts.
- Repairs should be made only by authorized personnel.
- Check voltage to be sure that the voltage indicated on the name plate agrees with your voltage.
- Never clean with scouring powders or hard implements.

## FREEZING TIME AND BOWL PREPARATION

The freezer bowl must be completely frozen before you begin your recipe. Before freezing, wash and dry the bowl. The length of time needed to reach the frozen state depends on how cold your freezer is. It is recommended that you place the freezer bowl in the back of your freezer where it is coldest. Be sure to place the freezer bowl on a flat surface in its upright position for even freezing.

Generally, freezing time is between 16 and 24 hours. Shake the bowl to determine whether it is completely frozen. If you do not hear the liquid within the bowl moving, the cooling liquid is therefore frozen. For the most convenient frozen desserts and drinks, leave your freezer bowl in the freezer at all times. Use the bowl immediately after removing from the freezer. It will begin to quickly defrost once it has been removed from the freezer.

**Reminder:** Your freezer should be set to 0°F to ensure proper freezing of all foods.

## MAKING FROZEN DESSERTS

1. Prepare recipe ingredients from pages that follow or from your own recipe. Flip booklet over for Cuisinart recipes. If you use your own recipe, be sure it yields 1½ quarts or less.
2. Remove the freezer bowl from the freezer. Place freezer bowl on the center of the base.  
**NOTE:** Bowl will begin to defrost quickly once it has been removed from freezer. Use it immediately after removing from freezer.
3. Place mixing paddle in freezer bowl. It just rests in the center of the bowl, with the circle side facing up.
4. Place lid on base and rotate clockwise until tabs on lid lock in place on base.
5. Press On/Off switch to ON position. Freezer bowl will begin to turn.
6. Immediately pour ingredients through ingredient spout.  
**NOTE: Ingredients must be added to the freezer bowl after unit is turned on.**
7. Frozen desserts will be done in less than 20 minutes. The time will depend on the recipe and volume of the dessert you are making. When the mixture has thickened to your liking, it is done. If you desire a firmer consistency, transfer the dessert to an airtight container and store in the freezer for two or more hours.

**NOTE:** Do not store frozen desserts in the freezer bowl. Desserts will stick to the sides of the freezer bowl and may damage the bowl. Store only in a freezer-safe airtight container.

## ADDING INGREDIENTS

Ingredients such as chips and nuts should be added about 5 minutes before the recipe is complete. Once the dessert has begun to thicken, add the ingredients through the ingredient spout. Nuts and other ingredients should be no larger than a chocolate chip.

## SAFETY FEATURE

The Cuisinart® Automatic Frozen Yogurt-Ice Cream & Sorbet Maker is equipped with a safety feature that automatically stops the unit if the motor overheats. This may occur if the dessert is extremely thick, if the unit has been running for an excessively long period of time, or if added ingredients (nuts, etc.) are in extremely large pieces. To reset the unit, put the On/Off switch in the OFF position and unplug the unit. Let the unit cool off. After a few minutes, you may turn the unit on again and continue making the dessert.

## CLEANING AND STORAGE

### Cleaning

Clean the freezer bowl, mixing paddle and lid in warm soapy water. **DO NOT PUT FREEZER BOWL IN THE DISHWASHER. DO NOT CLEAN WITH ABRASIVE CLEANSERS OR IMPLEMENTS.** Wipe motor base clean with damp cloth. Dry all parts thoroughly.

### Storage

**DO NOT** put freezer bowl in freezer if bowl is wet. **DO NOT** store lid, mixing paddle, or base in freezer. You may store the freezer bowl in the freezer for convenient, immediate use. Do not store frozen desserts in the freezer bowl in the freezer for more than 30 minutes at a time. Transfer frozen desserts to a freezer-safe, airtight container for longer storage in the freezer.

## RECIPE TIPS

The recipes that follow offer you a variety of options for delicious frozen desserts. You may create or use recipes of your own, as long as they yield no more than 1½ quarts.

- Frozen desserts from the Cuisinart® Automatic Frozen Yogurt–Ice Cream & Sorbet Maker use pure, fresh ingredients. Because of this, the desserts and drinks do not have the same characteristics as commercially prepared frozen desserts and drinks. Most store-bought versions use gums and preservatives to make them firmer. **If you desire a firmer consistency, transfer the dessert to an airtight container and store in the freezer until desired consistency is reached, usually two or more hours.**
- Some recipes use precooked ingredients. For best results, the mixture should be chilled overnight before using. Or, chill the recipe over an ice bath, until it is completely cooled, before using.
- To make an ice bath, fill a large container with ice and water. Place saucepan or other container into the ice bath. Cool precooked ingredients completely.
- Prior to freezing, most recipes may be stored in the refrigerator for up to 3 days.
- You may substitute lower fat creams (e.g., half and half, milk (reduced fat or lowfat) as well as non-dairy milks (soy, rice) for heavy cream and whole milk used in many recipes. However, keep in mind that the higher the fat content, the richer and creamier the result. Using lower fat substitutes may change the taste, consistency and texture of the dessert. When substituting, be sure to use the same volume of the substitute as you would have used of the original item. For example, if the recipe calls for two cups of cream, use a total of two cups of the substitute (such as 1 cup cream, 1 cup whole milk).
- You may substitute artificial sweeteners for sugar. If the recipe is to be precooked, add the sweetener after the heating process is complete and ingredients have cooked. Stir the mixture thoroughly to dissolve the sweetener.
- In recipes that use alcohol, add the alcohol during the last two minutes of the freezing process. Otherwise, the alcohol may impede the freezing process.
- When making sorbet, be sure to test the ripeness and sweetness of the fruit before you use it. The freezing process reduces the sweetness of the fruit so that it will taste less sweet than the recipe mixture. If the fruit tastes tart, add sugar to the recipe. If the fruit is very ripe or sweet, reduce the amount of sugar in the recipe.
- The Cuisinart recipes listed below will yield up to 1½ quarts of dessert. When pouring ingredients in through the ingredient spout, DO NOT fill the freezer bowl higher than ¼-inch from the top of the freezer bowl. The ingredients will increase in volume during the freezing process.

- When making more than one recipe at a time, be sure the freezer bowl is completely frozen before each use. Additional freezer bowls may be purchased on the Cuisinart web site ([www.cuisinart.com](http://www.cuisinart.com)).
- Make sure mixing paddle and lid are in place before turning on machine.

Makes about 6 cups (twelve ½-cup servings)

- ½ cup whole milk**

- ½ teaspoon pure vanilla extract**
- ¼ teaspoon salt**
- ⅓ cup packed dark brown sugar**

2. While the milk/cream mixture is steeping, heat the sugar with water in a large skillet until it begins to sizzle. Stir in the butter and heat until melted. Add the bananas; cook for about 2 minutes, or until fragrant and softened. Carefully stir in the rum and cook for an additional 2 minutes, or until slightly thickened. Remove from heat. Using a slotted spoon, strain the banana/sugar mixture, reserving the sugar syrup and bananas in separate bowls.

## Custard-Style Ice Creams

### Vanilla Bean Ice Cream

*For the true vanilla lover. Be sure to use fresh vanilla beans to capture the intense flavor.*

Makes about 6 cups (twelve ½-cup servings)

- 2 cups whole milk**
- 2 cups heavy cream**
- 1 cup granulated sugar, divided**
- pinch salt**
- 1 whole vanilla bean, halved and seeds scraped**
- 5 large egg yolks**
- 1½ teaspoons pure vanilla extract**

- In a medium saucepan set over medium-low heat, whisk together the milk, cream, half of the sugar, salt and the scraped vanilla bean (including the pod). Bring the mixture just to a boil.
- While the milk/cream mixture is heating, combine the yolks and remaining sugar in a medium bowl. Using a hand mixer on low speed or whisk, beat until mixture is pale and thick.
- Once the milk/cream mixture has come to a slight boil, whisk about ⅓ of the hot mixture into the yolk/sugar mixture. Add another ⅓ of the mixture, then return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook – the process should only take a few minutes.
- Pour the mixture through a fine mesh strainer (discard the vanilla pod) and bring to room temperature. Stir in the vanilla extract. Cover and refrigerate 1 to 2 hours, or overnight.

- Turn on the Cuisinart® ice cream maker; pour the mixture into the frozen freezer bowl and let mix until thickened, about 20 minutes. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

### Fresh Mint with Chocolate Cookies

*Always a winning combination, fresh mint and chocolate take the forefront in this rich and creamy ice cream.*

Makes about 6 cups (twelve ½-cup servings)

- 2 cups whole milk**
- 2 cups heavy cream**
- 1 cup granulated sugar, divided**
- pinch salt**
- 1½ teaspoons pure vanilla extract**
- 2 cups packed fresh mint leaves**
- 5 large egg yolks**
- 1 cup crushed chocolate sandwich cookies (about 8 cookies)**

- In a medium saucepan set over medium-low heat, whisk together the milk, cream, half of the granulated sugar, salt, and vanilla. Bring the mixture just to a boil. Remove from heat and add the mint leaves; let steep for 20 to 30 minutes. If you desire a milder mint flavor, remove and discard the mint leaves after steeping, but for a more intense ice cream we recommend blending the milk/mint mixture using an immersion blender. After steeping, return the mixture just to a boil over medium-low heat.
- While the milk/cream mixture is reheating, combine the yolks and remaining sugar in a medium bowl. Using a hand mixer on low speed or a whisk, beat until mixture is pale and thick.
- Once the milk/cream mixture has come to a slight boil, whisk about ⅓ of the hot mixture into the yolk/sugar mixture. Add another ⅓ of the mixture, then return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook – the process should only take a few minutes.
- Pour the mixture through a fine mesh strainer. Bring the ice cream base to room temperature. Cover and refrigerate 1 to 2 hours, or overnight.
- Turn on the Cuisinart® ice cream maker; pour the mixture into the frozen freezer bowl and let mix until thickened, about 20 minutes. When the ice cream is almost fully churned, gradually add the crushed cookies through the top of the ice cream maker; let mix until fully combined.

6. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

## Frozen Desserts

### Ice Cream Sandwich Cookies

*A step above the traditional ice cream sandwich cookies.*

*A perfect match for your favorite flavor.*

*If you cannot find cocoa nibs, miniature chocolate chips can be substituted, or you can double the amount of pecans.*

Makes 24 cookies (for 12 ice cream sandwiches)

- ⅓ cup cocoa powder, sifted**
- 1⅓ cups bread flour**
- ¾ teaspoon baking powder**
- ¼ teaspoon salt**
- 1 tablespoon instant espresso powder**
- ½ cup unsalted butter, room temperature and cubed**
- 1 cup granulated sugar**
- 1 large egg**
- 1 teaspoon pure vanilla extract**
- 3 tablespoons cocoa nibs (These can be found in most gourmet or cooking stores. If you cannot find them, substitute with coarsely chopped, toasted pecans or miniature chocolate chips.)**
- ¼ cup chopped pecans, toasted**

1. Preheat oven to 350°F.
2. Combine the cocoa powder, flour, baking powder, salt and espresso powder in a small bowl. Whisk to blend; reserve.
3. Put the butter into the bowl of a stand mixer, fitted with the mixing paddle (or use a hand mixer fitted with the mixing beaters). Using medium speed, cream until smooth. Gradually add the sugar and mix until creamy. Add the egg and vanilla and mix until combined. Add the dry ingredients and, using a low speed, mix until fully incorporated. Add the cocoa nibs and pecans and mix on low until just combined.
4. Using a small ice cream scoop (about 1½ inches in diameter) scoop the dough onto a parchment-lined cookie sheet (each round should be about 2 tablespoons). Use a cup to flatten each cookie mound down.
5. Bake in the preheated oven for about 15 to 20 minutes, or until the cookie looks dry, but not firm. Let cookies fully cool before assembling.

**To assemble:** Using a small ice cream scoop, scoop about 3 tablespoons of your favorite ice cream onto the flat part of one cookie. Place another cookie on top of the ice cream and press down until the ice cream just reaches the edge of the cookies. Continue with each set of cookies. Wrap each ice cream sandwich in plastic wrap and chill in a freezer until firm (about 20 minutes).

## Strawberry Chocolate Bonbons

*This decadent dessert is reminiscent of frozen chocolate-covered strawberries.*

Makes 35 bonbons

- 1** recipe **Chocolate Brownies (recipe follows)**
- 1** recipe (about 5½ cups) **strawberry ice cream (page 4)**
- 12** ounces **bittersweet or semisweet chocolate (about 2 cups of chips), roughly chopped**
- ¼** cup **unsalted butter, cubed**
- 1** **tablespoon light corn syrup**

1. Using a 2¼-inch round pastry cutter, cut 35 rounds out of the pan of brownies; reserve remaining brownie bits for another use (great crumbled into freshly churned ice cream). Reserve cut brownies on a wax/parchment paper-lined pan that will be able to fit in your freezer.
2. Using a 2-inch ice cream scoop, place one scoop of the ice cream on each brownie round. Cover with wax paper and freeze for about 15 minutes, or until fully hardened.
3. While the ice cream/brownies are chilling, make the chocolate glaze. In a heatproof bowl set over a pot of simmering water, melt the chocolate, butter and corn syrup together. Stir to combine and cool to room temperature.
4. Remove the ice cream/brownies from the freezer. Place a cooling rack on top of a wax/parchment lined pan. Place the ice cream/brownie pieces on top of the cooling rack, leaving about ½-inch space in between each one. Using a ladle, slowly pour the melted chocolate/butter mixture over each ice cream/brownie. Be sure that the chocolate fully covers the gelato. Let the chocolate harden and then freeze for 15 minutes, or overnight (covered with wax paper).

## Pistachio Birthday Cake

*We love this recipe with our pistachio ice cream, but any of your favorite flavors would work.*

Makes 12 servings

- 6 tablespoons unsalted butter, cubed**
- 3 ounces semisweet chocolate, chopped**
- 40 chocolate wafer cookies (Nabisco® brand works well), or 8 ounces of plain chocolate cookies**
- 1 recipe Pistachio Ice Cream (page 7), softened, or 5 to 6 cups of your favorite flavor**
- ½ cup chopped pistachios, toasted**

1. In a heat-proof bowl set over a pot of simmering water, combine the butter and chocolate. Stirring occasionally, let heat until just melted. Reserve.
2. Put the chocolate wafer cookies into the bowl of a food processor fitted with the chopping blade. Pulse until finely chopped. Add the melted butter/chocolate mixture through the feed tube of the processor and pulse until completely combined. Press ⅔ of the chocolate crumb mixture into the bottom and half-way up the sides of an 8-inch spring-form pan. Place in freezer; chill 10 to 15 minutes to let crust harden.
3. Remove from freezer and spread half of the ice cream over the chilled chocolate crust. Cover directly with plastic and return to freezer for about 30 minutes, or until just firm. Sprinkle the reserved chocolate crumb mixture over the chilled ice cream, press down gently, and return to freezer again to chill for about 30 minutes. Spread the remaining ice cream evenly over the top and smooth completely with an offset spatula. Cover and chill in the freezer for a minimum of 4 hours, or overnight to completely firm the cake.
4. Before serving, remove the ice cream cake from the pan and sprinkle the chopped pistachios on top of the cake. Serve on chilled plates.

## Sauces

### Caramel Sauce

*While we love this sauce on our ice creams, it can also be used as a dipping sauce for fruit and cake.*

Makes about ¾ cup

- ¾ cup granulated sugar**
- ½ teaspoon sea salt**
- ¼ cup water (enough so that the consistency when mixed with the sugar and salt is similar to wet sand)**
- 1 tablespoon light corn syrup**
- ⅓ cup heavy cream**
- 3 tablespoons unsalted butter, cut into ½-inch cubes**

1. In a medium, heavy-bottomed saucepan, stir together the sugar, salt, water and corn syrup. Be sure to clean the inside walls of the pan if there is any sugar on the sides (a clean, wet pastry brush works best). Set over medium-low heat and cook until the sugar mixture turns a very light amber color (about 10 to 15 minutes). Keep a close eye on the caramel sauce as it can burn easily.
2. Once the sugar mixture has a light amber color, take it off the stove and slowly and carefully stir in the cream. After the cream has been incorporated, slowly whisk in the butter, one piece at a time, continually whisking to emulsify until all the butter has been added. Use immediately, or keep warm over a pot of warm water.

1. Put the chocolate into a mixing bowl; reserve.
2. In a small, heavy-bottomed saucepan, combine the cream, corn syrup, vanilla, salt and cinnamon. Set over low heat and bring to a strong simmer. Immediately pour over the reserved chocolate and let sit for five minutes before whisking to combine. Use immediately, or keep warm over a pot of warm water.
