

\* Kaf-tan #2 \*

### DIRECTIONS

#### For cleaning Automatic Drip Coffee Makers \*\*

1. In a two quart container, dissolve contents of this package in 4 cups hot tap water; then add 4 cups cold tap water.
  2. Pour all eight cups of solution into receiving tank of coffee maker.
  3. Unplug coffee maker after running 4 cups of solution through machine (minus the filter) and let stand 20 minutes.
  4. Plug coffee maker in again and complete brewing cycle by running the remaining solution through the coffee maker.
  5. If coffee maker is heavily limed, repeat cycle with the same solution after it has cooled. Repeat as needed.
  6. Rinse coffee maker thoroughly 4 times by cycling 8 cups fresh cold tap water each time or until water is clear.
- \*\* If you have a Bunn-O-Matic Coffee Maker, follow directions 1 and 2, then complete brewing cycle. Let coffee maker stand for 20 minutes, then complete another brewing cycle by pouring in 8 cups fresh, cold tap water. Continue with Direction 5.  
Use Kaftan #2 every 3 to 4 weeks for best results.  
Use Kaftan #1 to clean percolators, dripolators, teapots, carafes and decanters.

**CAUTION:** Keep out of reach of children. If solution gets in eyes rinse with clear water. Do not drink solution, will taste very sour. If accidentally swallowed, drink lots of water or milk. Contents: Food grade Citric Acid USP, same as used in Jams, Jellies, Candy, Soft Pop, Soft Drinks, etc.

**NON-TOXIC**
